Bogura, Bangladesh

Professional Profile

BDS graduate from Rajshahi Medical College Dental Unit with broad clinical exposure in Conservative Dentistry and Endodontics, Paediatric Dentistry, Oral Surgery and Oral & Maxillofacial Surgery. Completed a structured one-year dental internship while concurrently working as a part-time dentist at Palash Dental Care. Experienced in restorative treatment, root canal treatment, extractions, paediatric procedures and minor oral surgery, with exposure to hospital and operating-theatre practice. Patient-focused and committed to safe, ethical and effective dental care.

Education

Bachelor of Dental Surgery (BDS)

2025

Rajshahi Medical College Dental Unit, Rajshahi, Bangladesh

Achievement: Achieved the second-highest marks at Rajshahi Medical College Dental Unit.

Professional Experience

Part-Time Dentist

September 2025 – August 2026

Palash Dental Care, Metropolitan Hospital, CNB More, Kazihata, Rajshahi

- Conducted patient history taking, clinical examination, preliminary diagnosis and treatment planning under clinical supervision.
- Performed scaling and polishing; provided oral-hygiene and preventive dental counselling.
- Performed composite, glass ionomer (GI) and temporary restorations, routine dental lesion management, root canal treatment and related endodontic procedures.
- Performed non-surgical and surgical tooth extractions, suturing and postoperative care, including dry socket management.
- Participated in apicectomy, periodontal and prosthodontic procedures; assisted senior clinicians with complex cases.
- Maintained appropriate infection-control practices throughout patient care.

Intern Doctor – Dental Unit

9 August 2025 – 8 August 2026

Rajshahi Medical College, Rajshahi, Bangladesh

- Completed rotations with broad exposure to Conservative Dentistry, Endodontics, Paediatric Dentistry, Oral Surgery and Oral & Maxillofacial Surgery.
- Performed composite and GI restorations, temporary fillings, dental lesion management, root canal treatment and paediatric pulpectomy/RCT.
- Performed primary and permanent tooth extractions and provided postoperative management.
- Performed arch bar, eyelet and direct dental wiring for selected dental/maxillofacial fracture cases.
- Performed post-surgical suturing, dry socket management, biopsy procedures and intralesional injections for selected oral white lesions.
- Participated in management of selected oral conditions, including trigeminal neuralgia, under clinical supervision.
- Assisted in operating-theatre cases involving mandibular fractures, impacted canine surgery, flap reconstruction and oral squamous cell carcinoma.
- Assisted in general surgical procedures including splenectomy, perianal abscess surgery, Fournier's gangrene management, diabetic foot surgery and mass closure.
- Performed urinary catheterization and nasogastric tube insertion independently after initial supervised training.
